

Publikationsmanagement an der Universität Bielefeld

26. Juni 2015

Barbara Knorn

Agenda

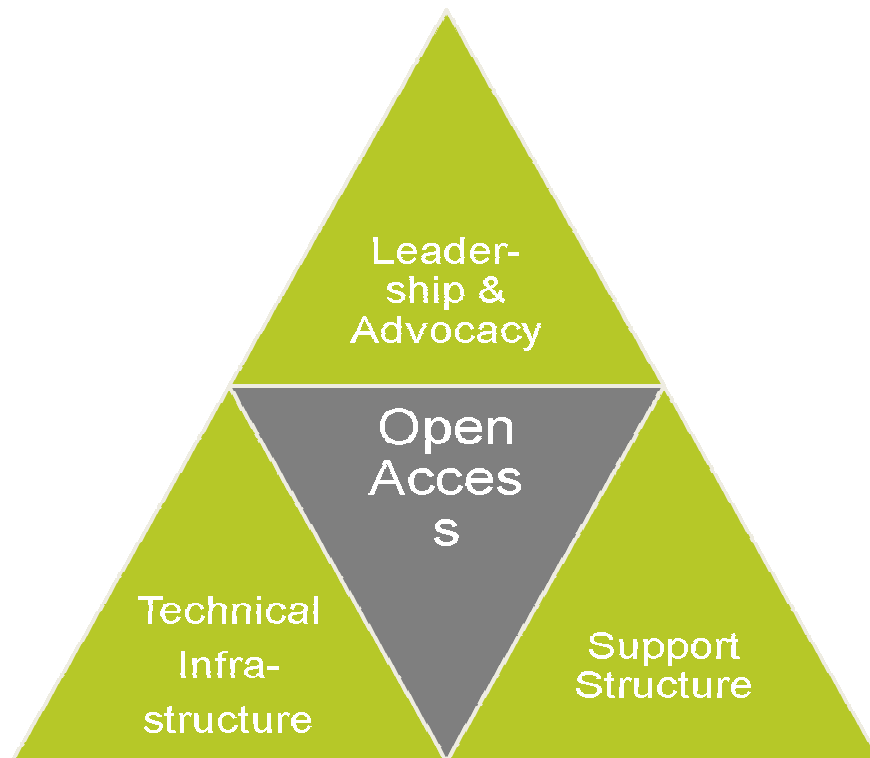

- Motivation:
 - Warum ist die Unterstützung des wissenschaftlichen Publizierens sinnvoll und notwendig?
- Hintergrund:
 - Angebote der Universitätsbibliothek Bielefeld
 - Nutzungsperspektive der Wissenschaftlerinnen und Wissenschaftler
 - Nationale und internationale Entwicklungen
- Vom Projekt zum Dienst: PUB – Publikationen an der Universität Bielefeld
- Ausblick

Motivation

Warum ist die Unterstützung des wissenschaftlichen Publizierens sinnvoll und notwendig?

- Offener Zugang zu Forschungsergebnissen (Open Access)
- Berichtserfordernisse betreffen zunehmend wissenschaftliche Publikationsaktivitäten
- Publikationsdienstleistungen ermöglichen eine stärkere Verzahnung mit dem Informationsmanagement der Universität

Open-Access-Strategie der Universität Bielefeld

Ad hoc Zusammensetzung
Fokusgruppe

Dienste der Servicebereiche
greifen ineinander

Abstimmung mit Bedarfen aus
der Forschung vor dem
Hintergrund der bestehenden
Infrastruktur

Maßgebliche Beschlüsse des Rektorats

2005

- Open-Access-Resolution

2008

- Open-Access-Publikationsfonds

2009

- Pilotprojekt INFORMIUM

2010

Nutzungsperspektiven der Wissenschaft

Empfehlungen zur Zukunft des wissenschaftlichen Publikationssystems (Juni 2015):

- Freiheit des wissenschaftlichen Austauschs
- Selbststeuerung von Qualität
- Wählbarkeit
- Dauerhafte Verfügbarkeit
- Wettbewerblichkeit
- Schonung von Zeitressourcen

PubLister – SFB Begutachtung

The screenshot shows a web browser window with the URL `publistdev.ub.uni-bielefeld.de/pl//index.php/frontdoor/index/docid/515`. The page header includes the University of Bielefeld logo and the text "University Library". Below this is a banner for the "Preprint Server" with a background image of hands typing on a laptop. To the right of the banner is a blue box with the text "Alignment in Communication SFB 673". Below the banner are two navigation links: "List of publications" and "Create New Publication". A "Login" link is also present with the text "You are not logged in.".

SFB 673

Emotional Priming of Sentence Processing: Effects of Speaker Emotional Expression and Listener Age

Authors: Carminati, M., & Knoeferle, P.

Organizational Units: A1: Modelling partners

Abstract: We report two visual-world eye-tracking experiments that investigated how and with which time course emotional information from a speaker's face affects younger ($N = 32$, Mean age = 23) and older ($N = 32$, Mean age = 64) listeners' visual attention and language comprehension as they processed emotional sentences in a visual context. The age manipulation was aimed at testing predictions by socio-emotional selectivity theory of a positivity effect in older adults. After viewing the emotional face of a speaker (happy or sad) on a computer display, participants were presented simultaneously with two pictures depicting opposite-valence events (positive and negative; IAPS database) while they listened to a sentence referring to one of the events. Participants' eye fixations on the pictures while processing the sentence were enhanced when the speaker's face was emotionally congruent with the sentence/picture compared to when it was not. The enhancement occurred from the early stages of sentence-reference disambiguation; importantly, it was modulated by age, in that for the older adults it was more pronounced with positive faces, and for the younger ones with negative faces. These findings demonstrate for the first time that emotional facial expressions, similarly to previously studied speaker cues such as eye gaze and gestures, are rapidly integrated into sentence processing. They also provide new evidence for positivity effects in older adults in online incremental situated sentence processing.

PubLister – Nachnutzung TH Wildau

The screenshot shows the PubLister web application interface. The browser address bar displays the URL: <https://koha.bib.th-wildau.de/publister/public/publist>. The page header includes the TH Wildau logo, the text "PubLister List of publications", a search input field, and a "Login" button.

The main content area is divided into two columns:

- Filter Publications:** This section contains a search input field and three expandable filter categories:
 - Author:** Lists authors with their publication counts: Lisdat, Fred (85); Althaus, Marco (55); Vandenhouten, Ralf (51); Schrader, Sigurd (48); Frohme, Marcus (45).
 - Type:** Lists publication types with their counts: Journal article (582); Book chapter/section (107); Conference contribution (39); Book (17); Edited Volume (3).
 - Version:** Lists publication versions with their counts: published (707); open access (37); published - online first (4); in press (1); unpublished (1).
 - Year:** Lists years with their counts: 2015 (53); 2014 (156); 2013 (119); 2012 (142).
- List of Publications (750):** This section displays a list of publications, sorted by Author. The first three entries are:
 - 2015 | Journal article | published

Anwendung – Einbindung in Webseite

The screenshot shows a web browser window with the URL <https://sfb882.uni-bielefeld.de/de/publications/data>. The page layout includes a header with the University of Bielefeld logo and SFB 882 branding. Below the header is a navigation menu with items like 'Startseite', 'Programm', and 'Publikationen'. The main content area is titled 'Datenpublikationen' and contains a paragraph explaining the use of Digital Object Identifiers (DOIs) for research data. It lists two publications with their DOIs and authors. To the right, there is a 'Neuigkeiten' section with three news items, each with a date and a link to 'alle Neuigkeiten'. At the bottom right, there is a 'Neueste Publikationen' section with a list of authors and titles.
